

DEMOCRATS TO ACT ON THE CURRENCY

SPRINGER WILL CIRCULATE A CALL FOR A CAUCUS.

President Sends to Congress Another Batch of Correspondence Relating To the Complication in Hawaii—Minister Willis and Commodore Walker Had a Lively Dispute.

WASHINGTON, Jan. 4.—The president sent to congress today another batch of Hawaiian correspondence dealing with the difference of opinion between Commodore Walker and Minister Willis in relation to the efforts of England to secure a cable station there. Mr. Springer will circulate a caucus call to consider the Carlisle currency bill for Monday evening. The house presented an animated scene when it was called to order by Speaker Crisp yesterday after the holiday recess. The galleries were crowded and over half the members were in their seats. In the diplomatic gallery were the Japanese minister and his secretary, and many prominent personages looked down from the reserved gallery. After the call of committees for reports Mr. Quigg of New York attempted to offer a resolution relating to the salaries in the New York postoffice, but Mr. Springer, in charge of the currency bill, cut him off with a motion to go into committee of the whole for the further consideration of that bill. Accordingly the house went into committee, Mr. Richardson of Tennessee in the chair, and Mr. Black of Georgia, a member of the banking and currency committee took the floor in favor of the bill.

The debate started sluggishly. Mr. Black denied at the outset the banking and currency committee had heard only national bankers while considering the pending measures and had turned a deaf ear to all others. He said legislation had not caused all the misfortunes under which the people were at present suffering. It might have contributed to their misfortune, and he believed the passage of the present bill would contribute to their relief, but he deprecated the feeling abroad in the land that for all the ills and misfortunes of the people they should turn to congress.

Mr. Haugen (rep., Wis.) who followed, opposed the measure as crude, ill-considered and dangerous to the best interests of the country.

Mr. McCreary (dem., Ky.), who was a member of the Russell's monetary conference, spoke in favor of the measure. He was opposed, he said, to funding the greenbacks with interest bearing bonds; he believed the banking business should be divorced from the government; the greenbacks should be retired by the surplus revenues as rapidly as possible and a safe and elastic currency should be provided.

Mr. McCreary expressed the opinion in the event of the failure of some currency legislation at this session, \$100,000,000 or \$150,000,000 of bonds would have to be issued.

Mr. McCreary yielded a few minutes of his time to his colleague, Mr. Buckner, the new democratic member from Kentucky, who spoke briefly in favor of the bill.

Mr. Adams (rep., Pa.) opposed the bill, attacking some of its provisions vigorously, especially the revival of state banks.

Mr. Simpson (pop., Kan.) seized on his statements, and Mr. Adams and he had an interesting colloquy. When Mr. Adams concluded the committee rose, and at 4:45 the house adjourned.

Sending Out Blanks for Income Tax. WASHINGTON, Jan. 4.—Commissioner Miller of the internal revenue bureau to-day will begin sending out taxpayers' return blanks for assessment of the internal revenue income tax. These blanks will be sent to the collectors of internal revenue throughout the country and by them will be distributed to the taxpayers. The records of the treasury department show the aggregate of all receipts from income taxes levied between the years 1863 and 1871, when the last act was repealed, was \$333,331,203, which is divided as follows: Personal, \$264,190,863; corporations, \$68,250,504; non-residents, \$437,373; special, \$452,550.

OWNED BY NICARAGUA. Secretary Gresham Summarizes Story of Bluefields Affair.

WASHINGTON, Jan. 4.—The president has sent to the senate about three hundred pages of correspondence relative to Bluefields, which is summarized in a letter from the secretary of state, of which the following is an extract: "In December, 1893, war broke out between Nicaragua and Honduras. In January a detachment of Honduran troops seized Cape Gracias a Dios, in Nicaragua, about sixty miles above the Mosquito strip. The Kearsarge was ordered to Bluefields to protect the interests of American citizens, but was wrecked on the way on Roncador Reef. Early in February the government of Nicaragua sent a military force to the strip to repel the threatened invasion. On Feb. 21 the Nicaraguans occupied the bluff, and on the 12th they took possession of Bluefields and proclaimed martial law in the reservation. Against this action Clarence, the so-called Mosquito chief, protested.

"It will be observed that from the beginning of the conflicts, which at

times were serious, this government has steadily recognized the paramount sovereignty of Nicaragua over the entire reservation, yielding to no pretension inconsistent with that sovereignty. At no time during the last forty or fifty years has the so-called native Indian government in the strip been real. On the contrary, it has been an alien municipal government, administered according to alien methods. Although Americans and American interests have some time dominated in the strip, this government, while intervening in proper cases for their protection, has constantly disavowed any right of its own or of its citizens to govern the reservation or participate in the political affairs. Whatever right of self government the Indians enjoyed under the treaty concluded between Great Britain and Nicaragua was to be exercised by themselves and not by aliens in their name. That treaty contemplated the eventual surrender by the Indians of their strip and their incorporation into the republic of Nicaragua on the same footing as other citizens of the republic."

The President concludes his report as follows: "Great Britain, it is proper to say, has given this government the most positive assurance that she asserts no right of sovereignty or protection over the territory, but, on the contrary, respects the full and paramount sovereignty of the government of Nicaragua."

INCOME TAX IN PERIL.

Senator Quay Moves That the Act be Repealed.

WASHINGTON, Jan. 4.—The attack on the income tax law was begun in the senate yesterday when Senator Quay introduced a proposed amendment to the urgent deficiency bill amending the tariff law by striking out all provision for an income tax and substituting a new woolen schedule, including a duty on raw wool.

The senate passed the resolution calling on the President for correspondence and other papers relative to the delivery by the United States consul at Shanghai of two Japanese citizens to the Chinese authorities; also asking for information as to whether the two Japanese were put to death after being tortured; further, whether there was any understanding with the Chinese government that United States officers should aid, assist and give safe conduct to any Japanese citizens desiring to leave China, etc.

The senate at 2 o'clock proceeded to the consideration of the Nicaraguan canal bill. Mr. Morgan had the floor to make a speech, in which he defended the constitutionality of the present bill. The senator consumed a great portion of his speech in controverting the statements made by the senator from Indiana (Mr. Turpie) in his three days' speech against the bill before the holiday recess. He argued against the proposition of Mr. Turpie the canal should be built by sections, and asserted the cost would be three times greater to build it than if constructed in the ordinary manner. If the company had gone to London instead of coming to Washington for a charter the canal would now be completed or nearly so, and it would, like the Suez canal, be under the civil and military control of Great Britain. He continued: "The senator from Indiana said after a long search he had failed to find any legislative precedent for the bill. The action of the government in taking \$7,000,000 in the Bank of the United States and the law of 1874 providing for the indorsement of \$30,000,000 of the bonds of the District of Columbia controvert this. Nothing exists or can exist beyond our territorial limits to abridge the power of congress to regulate commerce with foreign countries."

Before Mr. Morgan finished his remarks the senate, at 5 o'clock adjourned.

Ricks' Case Before the Committee.

WASHINGTON, Jan. 4.—There is a probability that the full committee on judiciary of the house will consider the case of Judge Ricks of Cleveland, Ohio, and make a report to the house without the intervention of the subcommittee which investigated the charges. If the committee should recommend Judge Ricks be impeached, it is hardly probable impeachment proceedings could be begun during this session.

Bounty for Sugar Producers.

WASHINGTON, Jan. 4.—Senator Caffery introduced a bill "for the relief of the sugar producers," providing for the payment of a bounty on the present year's crop of one cent a pound on sugar testing 90 degrees by polariscope and of nine tenths of a cent on sugar testing below that figure. The bill also provides for the payment of a bounty on the last year's crop to those who failed to collect before the present tariff law went into effect.

BIG LINE CITY MILL RUN ON NEW PLANS

FLOUR-MAKING NOT A SOURCE OF PROFIT.

Salmon Brothers Will Rebuild But Will Turn Their Attention to Lined Oil or to Electricity—Vacation of a Beloit Street Is Asked By the Iron Works.

BELOIT, Jan. 4.—Salmon Brothers' big Beloit roller mill is probably a thing of the past and is not likely to be rebuilt, the Messrs. Salmon both agreeing the flour business is overdone in the north and the condition not liable to improve for a long time. The Salmons are now thinking strongly of putting in a lined oil works, or possibly an electric plant of some kind, either for power or lighting. The oil work will depend largely on the disposition of Rock county farmers to raise flax.

The Beloit Iron Works want to build a \$15,000 addition to their plant and have asked the common council to vacate twenty-five feet of Second street.

The Berlin Works report a large business during 1894, but at very small margin.

POST OFFICE CLERK OWNS UP.

Frank H. Sparks of Cincinnati, Admits That He Robbed Himself.

CINCINNATI, Ohio, Jan. 4.—Assistant Cashier Frank H. Sparks of the Cincinnati postoffice took \$583 from the cash drawer while alone in the lunch hour yesterday to make up a shortage of \$283. He then struck himself on the head so as to cause an abrasion, lay on the floor to be found apparently unconscious by the janitor, and then asserted he had been attacked and robbed by two men. His story was so faulty as to arouse the suspicion of the police, and when closely pressed Sparks admitted his guilt. He had at first claimed that while he was alone in the office at 1:30 p. m. two men entered and asked for small change for a \$5 bill. While he was unlocking the money drawer, he said, one of them rushed through the small screen door, which happened to be open, and soon both of them attacked him. He said he dealt one of them a blow, but was himself struck by a pair of iron knuckles, and knew nothing that transpired from that time until he was aroused by Janitor Wiehe. His story was not believed and as a result Sparks was arrested and shortly afterward confessed he got away with the money himself. After his confession he told where this money was and it was recovered.

Sparks is married and belongs to a good family. His friends will make up the shortage of \$283, but Inspector Salmon says that will not save him from prosecution. Sparks will have a hearing to-day.

SPECIAL CITY TAXES ARE CALLED UNFAIR

ASSESSMENT FOR PAVING CRITICIZED.

Burden Should Not Rest Upon the Men Who Own Abutting Property—The People at Large are the Ones Who receive the Greatest Benefit.

EDITOR GAZETTE—Are special assessments as levied in Janesville just and equitable? Before another spring brings its paving, grading and other public improvements, Janesville taxpayers should consider the question thoroughly.

The movement in Chicago looking towards a reform in the matter of special assessments is in the right direction. The monstrous abuses carried on in which property owners have been despoiled, calls for an action on the part of all citizens. Perhaps the Chicago people have been the greatest sufferers, and instances are not at all uncommon either there or in other places where the special assessment abuse has practically confiscated numbers of homes and places a burden on property owners ill able to pay their assessments.

City at Large Is the Gainer.

The argument has always been that improvements benefit solely the abutting property, and therefore whatever the burden, the owner of adjacent property must alone pay the bills, excepting, perhaps, intersecting streets, which is assessed against the city at large. That more or less benefit is derived by abutting property owners from paved streets, sewers, etc., is of course true, but what measure of benefit does a city or town at large receive? To say the community at large receives the most beneficial results is to say but the truth. The present special assessment system is everywhere a positive robbery upon defenseless people, and in coming municipal campaigns could well be made an issue.

Where the Burden Is Distributed.

There are some cities where, while improvements are paid on the special assessment plan—a swindle in any phase—the tax or cost is somewhat more evenly distributed. The city pays in all cases 50 per cent, and the property owners 25 per cent, on each side of the street. This is not so bad, but it is bad enough. It may be true that property on a paved street is thereby enhanced in value, but the assessor proceeds to take advantage of this and again the property owner is practically fined for the crime of owning real estate. Admitting some benefit, who really receives the greatest benefit? The community at large uses the street to its manifest pleasure and comfort and the benefit of sewers, etc., and the property owner equally uses all other paved streets and the benefit of sewers, etc., in other portions of his city or town.

System Is All Wrong.

The inefficient and very unsatisfactory manner in which American municipalities are managed, is not so much the fault of the individual as it is the system. Reform the system and then make the individual, mayor, alderman or whatever official more responsible than he is now. It is but saying the truth that many an honest and well meaning man elected to office upon assuming his duties is appalled by what he finds all around him. His well meant efforts are blocked on all sides and in all directions. The system is too much for him, the rings corrupt or not, equally in his path, and after a while he subsides, discouraged and disgusted. Is not this all true?

Let us have justice in our city affairs, impartiality in our assessment system, and improvements that improve.

THIRD WARD.

HOW TO FIGHT BUFFALO MOTHS.

Only Two Sure Ways to Kill the Destructive Pests.

Buffalo moths are the pests which are now worrying house keepers and are eating clothing of all kind, silk as well as worsted. Those who are the best moth fighters say they know only two sure ways of killing the moth. One method is to pour gasoline right on them and the other is to put your foot squarely and heavily on them. The presence of the vermin can be made known by shaking a garment over a white sheet as they fall off readily. The idea of smothering them by the fumes of gasoline does not seem to do any good and there is great danger of fire.

SHREWD DEALERS IN HOT STUFF

Janesville Horse Radish Boys Promise to Be Wall Street Kings.

The line of goods men sell effects their disposition. Just so with boys. For thirty years new boys have occupied front seats as far as quickness and business instinct was concerned. The goods they handled accounted for this, and nobody wondered at their precocity. There is one thing more stimulating than newspapers, however. It is horse radish, and the Janesville horse radish industry is developing some youngsters who will be the Goulds and Vanderbilts of the next generation. If their power of handling customers develops properly they can not fail to be financial Napoleons. One of them about three feet high ran along beside a business man on his way down town this morning. He argued so hard that the man agreed to buy. Then difficulties arose. He could produce only seven cents in change. The youngsters' expression changed from pleading to stern determination.

"I guess you will have to go back home and get some more money," he said decisively. "I can't come down town for I am going to 'work' the hill."

The vigor with which he made his suggestion was crushing. The buyer walked meekly back a block or so, completed his horse radish deal, and then hurried down town, wondering if it was hypnotism that made him give in so completely to the tow-headed seven-year-old tyrant.

HE ISN'T AFRAID OF WILD CATS

R. J. Richardson Declares That National Banks Are a Worse Evil.

EDITOR GAZETTE—Your article in the ponderous columns of last night's issue would convey the idea that issues of so called wild cat money back in the fifties, entailed more losses to the commonwealth than the national banking law.

The system of banking previous to the national bank act was pernicious, aggravating and entailed numerous losses on the masses. While the losses to the many industries of that time was great it was not one dollar in fifty of the taxes levied on the industries of the country through the national bank act. The interest on the bonds issued for the benefit of the mortgaged men of the nation, and collected from its industries, since the national bank act amounts to more than \$500,000,000.

The entire issues of the so called wild cat did not amount to \$50,000,000, and more than ninety per cent of it has been redeemed.

Then, the mortgaged men got the benefit of the masses' loss.

Now, the mortgaged men are getting the benefit of the taxes collected from the masses. Yours,

R. J. RICHARDSON,
alias (Old Crank)

'DIBOLO' IS LAID TO REST

Burr Robbins' "Fire King" Has Gone to His Final Reward.

Many Janesville people will remember "Dibolo, the Fire King," who was, for some years, with Burr Robbins' circus, and whose death occurred at Chicago the other day. Dibolo's right name was John R. Moody, and his funeral took place yesterday from his late home at the intersection of State and Sixth streets. The attendance of friends to pay their last respects to the deceased, was large. The funeral oration was delivered by Rev. Henry G. Perry, grand chaplain of the Order of Elks, of which the deceased was a member. A quartet rendered appropriate music, after which the remains were removed to Mount Greenwood, the pall bearers being George Schlesinger, M. E. Clapp, and John Fogle, of the Order of Elks, and John Shine, Mills R. Cobb, and John White, of the Knights of Pythias. The floral offerings were many and beautiful.

AGED MILTON WOMAN HAD A HARD FALL.

Mrs. Robert Smart Who Is Sixty Nine Years Old Had an Accident While Helping Her Husband Fill a Tick In the Barn—Other County Notes.

MILTON, Jan. 4.—Mrs. Robert Smart, while assisting her husband in filling a bed in his barn, fell several feet and received a severe shock. Fortunately no bones were broken and at the present writing no serious results are feared. Mrs. Smart is sixty-nine years of age and a fall at her age is anything but a pleasant affair. Mrs. David McCulloch secured the watch offered by the Telephone for the largest number of new subscribers. It is an Elgin movement in a Ross case and is a nice timepiece. Mrs. E. H. Cary returned from Britt, Iowa, Wednesday. She reports her son-in-law, E. P. Healy no better. The fever had run forty-four days when she left and his temperature was 103. Mr. and Mrs. Miles Rice gave a party Wednesday evening in honor of the sixteenth birthday of their daughter Polly. The young people in attendance had a jolly good time. The Clayton Jubilee Singers appeared before a well pleased audience at the Seventh Day Baptist church Wednesday evening. The male quartette was the best feature in the program in our judgment and the solos the weakest. Some of the choirs work was excellent. Miss Lillian Dwyer of Milwaukee was a guest at James McEwans this week. W. H. Boyce and wife, of Mechanicsville, Iowa, arrived here this week, being called here by the illness of Mrs. Boyce's father David Smith. Dr. Gifford of Orfordville, was in town Tuesday on professional business. C. E. Bingham, solo expert in the Academy of Music Orchestra, Chicago, came home to enjoy a vacation with his parents. Miss Bessie Tompkins returned to Merrill Monday to resume her position in the high school. Dr. Fred D. Rogers of Chicago, spent Wednesday with his parents, Mr. and Mrs. E. B. Rogers. The New Year was ushered in with the ringing of bells and a serenade by the "cow bell" choir. Albertus Clarke delivered to Clarke Bros. this week 21 March pigs that averaged 325. This is the best lot received by that firm this season.

Arrest of Irvin McLean Has a Reassuring Effect—Other News.

FULTON, Jan. 4.—Fulton people feel much relieved now that Irvin McLean is safe behind the bars and much praise is given O. P. Murwin, who followed McLean to Chicago and caused his arrest. The boy drew a revolver and was only unarmed in time to save himself from being a murderer. Young McLean's raids had caused great excitement here as nearly the whole town was afraid to leave their homes day or night. J. C. Hill of Janesville together with Let Hill of Neb., was in town Sunday soliciting aid for the suffering of that state. Mrs. Abraham Keen is much better. Mrs. Albert Rice is very poorly. RICH FOLKS GOBBLED THE GIFT

Milton Junction's Flour Distribution On Christmas Day Provokes a Scandal.

A Christmas flour distribution started Milton Junction's scandal Chambers & Owen, whose hearts were made on a number 12 last, C width, decided to temper the wind to shorn lambs around the Junction by giving away \$25 dollars' worth of flour. They fixed on Christmas day as the time and placed the flour in the hands of one of the church societies of the village. The distribution was made and to many destitute homes it brought genuine holiday cheer. There were thanks so sincere and heartfelt that they might well repay the generous pair of wholesalers, but when the full list of beneficiaries was announced, however, Junction people were surprised to see that several people reasonably well-to-do had managed to have their names included and to get a share of the donation. At least half a dozen on the list were found to have money out at interest, one being credited with an income of \$3,000 a year—a very comfortable sum when village requirements are considered. Another had recently salted away \$7,500 as the proceeds of real estate sales. Nobody questioned that these "sufferers" welcomed the flour quite as much as the people who had a dollar's supply in the house. Still the distribution had not been made with a view to alleviating the suffering of the Brotherhood of Coupon Cutters, and there is considerable indignation among the good Junction folk.

FACIS FOR THE FAIR.

A novelty in pale pink Russian net sprinkled with black spots and delicately perfumed is known as the "complexion veil," and is particularly becoming to blondes.

Mrs. Elizabeth Kingsbury, in discussing the question why women do not marry, says that the principal reason is because of the financial situation in which many wives are kept.

A pair of gloves passes through nearly 200 hands from the moment the skin leaves the dresser's till the time the gloves are purchased.

Something new is plain black Hindoo cloth, which takes the place of lawn. It resembles black lawn very much, is of perfectly fast color and has a very soft finish.

Satin ribbon three inches wide, folded to the width of the ordinary collar and fastened at the side, is a change from the shirred velvet collar.

With the blouse or shirt waist the "costa" tie will be introduced. It is made of a piece of the material attached to the blouse, two ends, in fact, and loosely tied.

A new feature in the skirts is to plait them in the waist, with a box plait on either side and two plaits in the back, so they stand out in a real antique manner. It is foretold that this style will become general.

The latest wedding invitation is a very large note sheet, the engraving in delicate script, and in what is termed "paragraph style," which means in full lines, as one would write a note without leaving spaces and putting the names by themselves, with the preposition before, as heretofore.

In Belgium it is the custom to give certificates of marriage in the form of little books with paper covers. These little books, which are often produced in the course of law proceedings and are taken in evidence, are apt to become dirty and dog-eared. The burgomaster of Brussels has therefore hit upon a new plan. Henceforward a charge will be made for the books, which will be neatly bound in morocco and gilt-edged. They will be something more than a mere certificate.

Mon. William M. Evans has a big flowing stream of pure water on his farm near Windsor, Vermont, known as Runnymede spring, and the Windsor authorities have gladly accepted themselves of the privilege extended to them of supplying the town with it.

Perhaps those bankers wish to have it appear that they have got on the wrong side of the bond market.

DOWN TO THE BELOW MERCURY DROPPED

FIRST COLD DAY OF THE WINTER IS HERE.

Hardy Snow Enough to Rub on all the Frosted Ears, But Purveyor Burnham Has a New Line of Weather Coming That Will Be a Great Relief.

The mercury went down so low last night that early risers could find it this morning. It has been loafing around up near the freezing point for so long that many people thought it was going to stay there until next spring but they didn't figure just right. Yesterday the weather man said "cold wave in the west half." That meant Prairie du Chien and Dubuque but if a cold wave at those towns puts Janesville's mercury far enough below the freezing point to pull nails out of sidewalks and crack open block pavement what would a cold wave right here in Janesville do?

Fourteen degrees below was the cheerful report that B. M. Bucklen brought in from Milton avenue at 6:30 this morning. It was nearly as cold as that according to several thermometers down town, and out in the country the mercury went as low as 16. This was the mark in Footville, a Superintendent William Ross said after he had reached a Janesville coal store and thawed out his ears.

He got in town just soon enough to hear good news. From the weather bureau a three word that tomorrow would be fair and warmer. The official report on climatic vagaries in this ball's case is as follows:

Fair and warmer tomorrow.

Forecast: Fair and warmer tonight and Saturday.

The temperature as recorded by S. Burnham & Co. during the last twenty-four hours was as follows:
7 a. m. 8 below
1 p. m. 4 below
4 p. m. 4 below
Wind, west.

HAS A GOOD WORD FOR COL. SMITH

Milwaukee Journal Lay- Politics Aside to Give Him a Compliment.

The democratic Milwaukee Journal pays this graceful compliment to Colonel Nicholas Smith.

"Colonel Nicholas Smith, one of the best known and most popular newspaper men of the state, has bought an interest in the Fond du Lac Commonwealth and will have editorial charge of the paper. Colonel Smith was the editor of the Janesville Gazette for many years and made it one of the best papers in the state, consequently we may hope for something in the Fond du Lac paper under his control. He is a ready and forcible writer, one who does not always let partisanship run away with his judgment, and one who has a kind word for political opponents as well as for political friends. The newspaper fraternity will wish him abundant success in his undertaking."

The popularity of the Waverly novels is attested by the remarkable fact that for the last thirty years no fewer than thirty hands have been uninterruptedly engaged by one Edinburgh printing firm in producing Sir Walter Scott's works.

Meyerbeer in his last will ordered his musical remains to be untouched for thirty years after his death. That time has expired, and it is reported that among his papers is a nearly complete long opera in which young Goethe is the center.

And when dirty you need only wipe them off with a wet cloth or sponge?

Yes.

Wonderful! How are they made?

A linen collar covered on both sides with waterproof "CELLULOID." Looks exactly like a linen collar.

Is it the only waterproof collar and cuff made?

No, but it is the only one made with the linen interlining and consequently the only one that can give entire satisfaction, because it is the best.

How can I know that I get the right kind?

Because every piece is stamped as follows:

THIS DAY IN HISTORY

107 B. C.—Marcus Tullius Cicero, Roman orator, born; assassinated 43 B. C.
 1740—Benedict Arnold born in Norwich, Conn.; died 1801. Arnold's military career was a glorious one up to the date of his treason at West Point. He aided Ethan Allen in the capture of Ticonderoga and led an expedition through the wilderness to Quebec, where he was wounded. He fought with great skill on Lake Champlain while in command of a flotilla. At Bemis' Heights he commanded the left wing of the American army, and a few days later performed heroic deeds at Stillwater, where he was again wounded. After his desertion to the British he engaged in a warfare of burning and pillage on the James river and in Virginia.
 1763—Lucretia Coffin Mott, reformer and abolitionist, born on Nantucket island; died 1861.
 1830—Mrs. Martha Jean Reade Nash Lamb, a distinguished historical author and editor, died in New York city; born 1829.
 1894—Fire destroyed \$250,000 of property in the heart of Toledo.

FOUND FEW FRAUDS.

After an investigation costing \$800,000, President Cleveland's commissioners reported that in a list of 966,000 pensioners, only one in about 25,000 turned out to be dishonest. These statistics should put a stop to such reckless democratic charges about the abuses of the pension system as Mr. Cleveland has been fond of making. It is not by the who fought for the country that the government is robbed. The instances are very scarce in which a soldier gets a pension without deserving it. This is the testimony of experts appointed by a democratic administration to make a rigid investigation of the matter. The cases of fraud discovered are so few, comparatively speaking, that they do not have any serious significance. Instead of thousands of such cases, as claimed by the president, his agents have not been able to find quite forty in all. This is really a splendid vindication of the integrity of the pensioners as a class. It shows that the pension roll is not in need of that "purging" about which the democrats have so much to say. The money voted for the relief of disabled and dependent Union soldiers is honestly applied, and the country has every reason to be satisfied on that point. Nobody favors the granting of pensions on illegal or insufficient grounds; and there is really no foundation for the charge that pensioners are or have been thus granted.

Good for Nebraska! She says she can take care of all the suffering within her borders without outside assistance. That's the sort of talk. There's too much passing the hat in this country for the future welfare of some of its citizens.

If the "sporting men" are right in their expressed belief, that the acquittal of Lavigne of the charge of murder by the New Orleans authorities, will help fictitious exhibitions, it is a great pity that he was acquitted. Help is not needed in that quarter.

Rich's Second Inaugural Message.

LANSING, Mich., Jan. 4.—The feature of yesterday's legislative session was the message of Gov. Rich. The governor, talking on the recent strikes, deprecated compulsory arbitration and advised the incorporation of labor organizations on the same plan as those of capitalists. The two houses have adjourned until Tuesday in order to give the presiding officers a chance to make up their committees.

SAVED FROM JAIL BY WISE TURKEYS

P. FINNERNAN CLEARED OF A LARCENY CHARGE.

Fowls Which He Was Said to Have Stolen Went Back to Their Barn Yard at Once When Released—Brief Bits of News Relating to the Bower City.

TURKEYS that knew their own home saved Patrick Finnernan from a justice court sentence. An Evansville man said the turkeys were stolen and took them from the Finnernan place by virtue of a search warrant. He carried the flock home, kept them in a coop for a week and then set them free for exercise. The turkeys poked around the yard for a few minutes and then struck out for Finnernan's. The fact that the fowls returned to Finnernan's so soon after being released, was taken as evidence that they had found their own home, and this had weight with the court in acquitting the defendant.

One item that is attracting special attention at the half-price sale of dry goods now taking place is a case of ladies' extra heavy, extra fine cashmere hose in fast blacks. Sizes 8 to 10, which are now on sale at half value, 25 cents. Do not conflict these with the common wool hose sold elsewhere at this price, but bear in mind that they are full regular made cashmere hose that retail invariably at half a dollar. It's economy to buy them by the half dozen box. Archie Reid & Company.

PUT THREE BAD MEN DOWN IN THE JAIL

THE POLICE MADE A GOOD HAUL YESTERDAY.

Charles Smith, Who Is Well Known to The Police, Had a Burglar's Lantern When He and Two Others Were Arrested For Trying to Sell Caps Evidently Stolen.

Chief of Police Acheson and Constable Wallace Cochran made a good haul yesterday afternoon when they gathered in Charles Smith, Mike Moran and William Murphy, and they think the chances are that someone wants them and "wants them bad."

The three men were the ones that were arrested at 4:30 yesterday afternoon as was stated in last night's paper. They had been trying to sell caps to Chicago and Northwestern trainmen and their queer actions excited the suspicions of the railroad men and a message was sent to Chief Acheson. The chief and Constable Cochran at once went to the depot and finally found the three men in a box car in a train that was about to pull out. The train was held until the police got the men and took them to jail. This morning they were brought before Judge Phelps, charged with vagrancy and all of them pleaded not guilty.

Chief Acheson notified Yardmaster David Griffin and Bill Clerk Frank Ranous to be present and they were, but the other trainmen had not yet returned from their trip. Chief Acheson asked for an adjournment whereupon Moran and Smith decided to plead guilty and Judge Phelps gave the former three days. Murphy then decided that he would ask that "the same privileges be extended to him" although at first he had demanded a "change of venue." Judge Phelps then sentenced him to eight days and gave Smith twelve.

Smith Is a Bad Man.

Charles Smith, as he gave his name is a bad man, the police think. He was arrested here last July under the charge of carrying concealed weapons and was suspected of robbing Hon. Alexander Graham of his gold watch at that time. He then gave his name as "Charles Morris." When he was brought into court this morning Clerk Williams recognized him.

"You are looking better today than you did the last time you were up here," he remarked, whereupon "Smith" smiled and said he was glad to hear it.

When the police arrested the trio yesterday they found a pocket lantern, and several pieces of candle for it in Smith's pocket. The lantern was the kind burglars use. It was a very small one, that could be carried in the pocket and had a slide in it that would shut off the light completely. The police are confident that Smith is wanted somewhere. He is but 5 feet, 9 inches tall, slim build, light complexion, light hair cut very short and light mustache. When he was arrested before, he had a set of burglar's tools in his possession.

When the conductor of the train that the three men were riding on returns from his trip, the police will know whether or not the three men broke the seat of the car in which they were riding. If they did the case against them will be pushed and it is a severe offense. No trace of the goods that the men were trying to sell could be discovered.

Empress Josephine Face Soap.

This soap is unequalled and inimitable, is the common verdict of all who use the Empress Josephine face soap.

This soap possesses qualities not to be found in any other soap, and owing to this fact, its use is urgently recommended in connection with all the Empress Josephine's preparations.

In the manufacture of many toilet soaps, products are used that are not only injurious to the skin, but will also destroy entirely the wonderful effects produced by these excellent remedies. For sale by PRENTICE & EVENSEN.

Captain C. F. Glass Has Received an Invitation For Himself and His Command From Adjutant General Falk and It Will Be Accepted—Many Citizens Will Also Attend

The Janesville Light Infantry will attend the gubernatorial inauguration ceremonies in Madison on Monday, and will join in the festivities in the evening. A number of ladies and gentlemen from Janesville will also be present at the ceremonies. Captain Glass has received an invitation to be present with his command in uniform. "I shall endeavor to be present with as many of my company as can possibly get away," said Captain Glass this morning. The invitation is from the adjutant general, and reads as follows:

MADISON, JANUARY 1, 1895. CAPTAIN CHARLES F. GLASS, COMMANDING CO. A, 1ST INFANTRY W. N. G. JANESVILLE, WIS. SIR:—I have the honor to tender you, and through you the officers and men of your command, as individuals, a cordial invitation to attend the inauguration of Governor-elect Upham, including the evening reception and ball at this city on Monday the 7th inst. The reception and ball will be free to all, and the inaugural committee desires that as many as possible of the members of the Wisconsin National Guard will be present in uniform to greet their new commander-in-chief. Very respectfully, OTTO H. FALK, Adjutant General.

DIPHTHERIA ON LOCUST STREET

Ten Year Old Daughter of John E. Wilson Died This Afternoon.

A fatal case of diphtheria was reported from 210 south Locust street today. The ten year old daughter of John E. Wilson died shortly after-noon.

A Little Bit Dilatory.

We, in our first shout for 1895. But not because we are not mindful of the arrival of the festive day. The old man 1894 was good as good could be to us and while we welcome the new, the old has a very warm corner and occupies a tender place in our hearts. But the king is dead, long live the king! So here we are out for a vigorous campaign for the new year.

Never so well fixed were we as now to give homeseekers or buyers for profit a good deal. We have some nice houses that we own, that we can and will make a lower price on than you can possibly get at any other of fice. That you see is the advantage we have here. We deal largely in our own property and have no one to consult but the buyer as to price and we are just now at the beginning of the year feeling like doing you some good. GEO. L. & SARAH H. CARRINGTON.

Felt Boots and Overs.

New is the time to buy felt boots and overs and we have a large stock which must go. Best felt boots and rubbers \$2.75 kind, \$2.25. Good felt boots and rubbers, \$2.50 kind, \$2.10. German socks, 90 cent grade for 75 cents. German socks, \$1.00 grade, go at 80 cents.

Best American pure gum rubber, with roll edge for socks or felts, \$1.60 grade for \$1.35. Call and see the goods and you will find them just as represented. LLOYD & SON, 57 W. Milwaukee.

Excellent Backing

We have found a large millionaire shoe factory which will give us credit, therefore we will close out that home factory's make of goods at cost, commencing Monday morning and replace with the other goods. Watch for large advertisement tomorrow night, the kind of shoes the name of the factory and the price will be given. Now that we have good backing we will remain in Janesville and not move to Aurora.

Happy Innocence
"Johnnie," said his mother, the other day, catching the young gentleman in the act of propelling pebbles in the direction of neighbor Jones' windows, "Johnnie, do you know that it is very wrong for little boys to throw stones? Never let me see you do it again."
Johnnie looked into his mother's face with that calm assurance which comes of a sense of innocent intent, and said: "Mamma, s'posing David's folks had been so particular, wouldn't it have been a bad thing for the Israelites?"

"The colonel paced backward and forward with his hands behind his back, reading the newspaper."
"At this sight the negro's face grew dreadfully pale."

"The man was dressed in a velvet jacket, and in pants of the same color."

THE FEMININE POINT OF VIEW.

"By Jove, Maria, you'll drive me to suicide one of these days."
"Oh, I hope not, Mr. Jones. I really don't think that poor Fido could ever be reconciled to a stepfather. He is so fond of you."

Dangerous in Any Way.
"Blifkens is in a critical condition; the wagon ran over him yesterday and broke both his legs above the knees."
"You don't say?—and there's Snifkins suffering terribly from the same cause."

"What, was he run down, too?"
"No; he ate one of the pies."—Chicago Record.

THE CHANGE OF LIFE.

A PICTURE FOR WOMEN'S EYES,

With the Hope That It May Do Some of Them Good.

(SPECIAL TO OUR LADY READERS.)

To-day there is the happy mother, healthy boys and girls, sunshine, music, amusements, the church, the romp and the ramble, the country and seashore. What- ever healthyminds in healthy bodies

may desire, that they may have, and mother is ever ready to join with them in the pleasure and fun.

Years come and go. The boys and girls grow up to men and women. Mother's hair is turning white; her steps are not so elastic, her spirits flag; there is an uneasy look in her dear eyes.

What can be the matter with mother? She is approaching the most important crisis of her life, "the change of life." Those watchful eyes detect the evidences. Years bring this change demanded by nature. What preparation have you made to carry the brave mother safely through it?

Within a comparatively short time the issue will be decided. Either nature fulfilling the law in proper, healthful manner, or—there is the wreck of a noble woman for you to grieve over.

There is salvation in *Lydia E. Pinkham's Vegetable Compound*. It will carry the mother safely through the inevitable change in her physical life.

All reputable druggists keep for you this grand remedy. See that "mother" has it, for the Lydia E. Pinkham's Vegetable Compound was won from the heights of medical science by a woman for all women nearing the change of life.

SCROFULA

Miss Della Stevens, of Boston, Mass., writes: I have always suffered from hereditary Scrofula, for which I tried various remedies, and many reliable physicians, but none relieved me. After taking SSS I am now well. I feel that it saved me from a life of untold agony, and shall take pleasure in speaking only words of praise for the wonderful medicine, and in recommending it to all.

"You Must Sell It."

He then went home, he didn't tell us how to sell it or anything else, but we knew what he meant--cut and slash--reduce the stock, sell it out no difference what the sacrifice. Do you understand? If not, come in and we'll explain.

Her Phonetic Visiting Card.

"May," said her husband, as they prepared to go out calling, "do you really mean to use those phonetic visiting cards, with your name spelled 'Mae Kathryn Alys Smith?'"

"I certainly do," replied Mrs. May Catherine Alice Smith.

"Very well, then," said her husband, firmly. "I am with you." And he politely handed her a card very neatly inscribed: "Jorje Phrederye Albyrt Smith."—Answers.

How Cruel.

Frank—Why does Miss Morton wear such enormous sleeves? Large sleeves are fashionable, I know, but hers are simply huge.

Miss Spite—Have you never noticed her mouth?

Frank—Why of course, but what has her mouth to do with it?

Miss Spite—Oh, nothing, only they say she has a habit of laughing in her sleeve.—Truth.

A True Saying.

The husband was complaining and the wife was busy about hunting for the sunshiny places.

"Life is a burden," he sighed.

"Yes, dear," she answered, "but you know we couldn't exist very well without it."

Then he smiled and took a new hold.

The Unexpected Discharge of a Cannon
Close by will not have a more disturbing effect upon the nerves which are vigorous than an ordinary noise upon those that are weak and untrusting. As a nerve, the Stomach Bitters is unrivaled. By promoting digestion and assimilation they overcome that gastric disorder, which is the most prolific cause of nervous debility, and which, so long as it exists, defeats a large measure of the action of sedatives and plasters. Such remedies, moreover, necessitate the use of increasing doses, and finally cease to act altogether, except in dangerous quantities. They never reach the fountain head of the trouble, and quiet the nerves only by semi-paralyzing them. Equally objectionable are heavy and cold alcoholic stimulants. Kidney, bladder and liver trouble, malaria, constipation and rheumatism are relieved by the Bitters which also promotes appetite and nightly repose.

A GREAT monthly feature of The Cosmopolitan Magazine is its literary department, "In the World of Art and Letters" where the best books of the month are discussed or noted. You can absolutely rely upon the candor of what is said. It is conducted by eight of the most famous critics of the world, including Francois San e, Friedrich Schlegel, Agnes Repplier, Andrew Lang and I Zangwill.

Besides all this, the December number contains an article on "The Relations of Photography to Art," illustrated by a series of beautiful, a travel article of Napoleon III, grand Marshal, a charming sketch, by a study of Queen Margherita; an article on "The Inscriptions of the World," and another of the "Great Passions of History" series to which James A. Henry Froude and Edmund Gosse have been contributors. And all this for 15 cents, or \$1.50 a year.

You might be charged more than 15 cents for such a number-- 25 cts., 35 cts., even \$1.00, but could it contain better material?
